

MODEL 8817 AXLE JACK TRANSPORTER

TRANSPORTER INCLUDES:

- Manual Winch for loading/unloading axle jack
- 16" diameter foam filled tires
- Tow Handle with 3" Lunette Eye for towing
- All unpainted parts are plated to resist corrosion
- Skydrol Resistant Paint (safety yellow)
- 1 Year Warranty
- Shipping Skid

Model 8817 is built to withstand harsh environmental conditions, rugged use and to provide many years of continuous service. Our customers are guaranteed a quality product with each purchase and are assured of our continued product support whenever and wherever the need arises.

BENEFITS:

- Transporter virtually eliminates towing damage to axle jacks
- Transporter is universal for all 45 to 95 ton Malabar axle jacks
- Foam filled tires are included which eliminate flats due to punctures and provides a cushioned ride
- Lightweight and rugged tubular frame construction
- Balanced design...only one person is required to load and unload the axle jack
- Unit is available in two configurations; single or dual position towbar. Refer to model 8817A for single position towbar

MODEL 8817 AXLE JACK TRANSPORTER

REDUCE AXLE JACK MAINTENANCE COST AND DOWNTIME.

Aircraft axle jacks are frequently subjected to significant wear and tear in today's fast-paced aircraft maintenance environment. Most axle jacks are built to withstand tow speeds up to 5 mph on smooth ramp surfaces. Excessive speed and/or uneven road or ramp surfaces accelerate wear and tear on the axle jack. Axle jack running gear components (casters, wheels, towbars and under carriage linkage), load gauges and jack cylinder bases are often damaged beyond economical repair even during the first year of operation. Labor costs and repair costs can easily approach several hundred dollars per year per jack.

The Model 8817 Transporter provides a simple yet effective solution for long distance, high speed (up to 20 mph) towing over rough and uneven surfaces.

SPECIFICATIONS

Unit Weight: 150 lbs (68 kg)
Unit Weight (with axle jack): 650 (295 kg)
Maximum Towing Speed: 20 mph (32.2 km/h)
Recommended Tow Vehicle Pintle Height: 5" (127 mm) to 13" (330 mm)
Standard Finish: Yellow Skydrol resistant paint

MODEL 8817 AXLE JACK TRANSPORTER CARRIES THE FOLLOWING MALABAR AXLE JACK MODELS

50P9AR, 60P9, 65P9, 65P9AR, 60P10, 65P10, 65P10AR, 85P10AR, 8899,
8900, 95P10AR

OPTIONAL EQUIPMENT CODE: (Specify at time of order)
SPC: Special Paint Color (yellow is standard)

PACKAGING CODES & OPTIONS: (Specify at time of order)
— : Domestic Skid
EC: Export Crate (Additional Cost)

SHIPPING DATA
